JP&E IN CREATION TIME

Care for Creation, Migrants and Refugees

Climate change causes drought, famine, war - and refugees and migration.

Most migrants move within their own country or to other poor countries nearby. Some come here and get (wrongly) blamed for overloading public services – what about the damaging cuts since 2010, under austerity?

In Scotland most Catholics are immigrants or descended from immigrants – Ireland, Italy, Poland, Africa, Asia, elsewhere. Coming to escape famine, war, oppression, poverty. Often facing prejudice and discrimination but making an immense contribution - including many key workers during COVID.

Loving Father, help us to 'love our neighbour as ourselves', all peoples, everywhere, responding to what Pope Francis called 'the cry of the earth and the cry of the poor'.
